Location, Location, Location

# Big Data

---

“Linking data from disparate sources to answer questions you didn’t even know to ask.”

Kent Kuo  
Oregon State, Dir. Ent. Computing

# Big Data

“Sifting through the sea of information in search of trends and truths.”

- Andrew Barbour, Campus Technology

## Defining big data

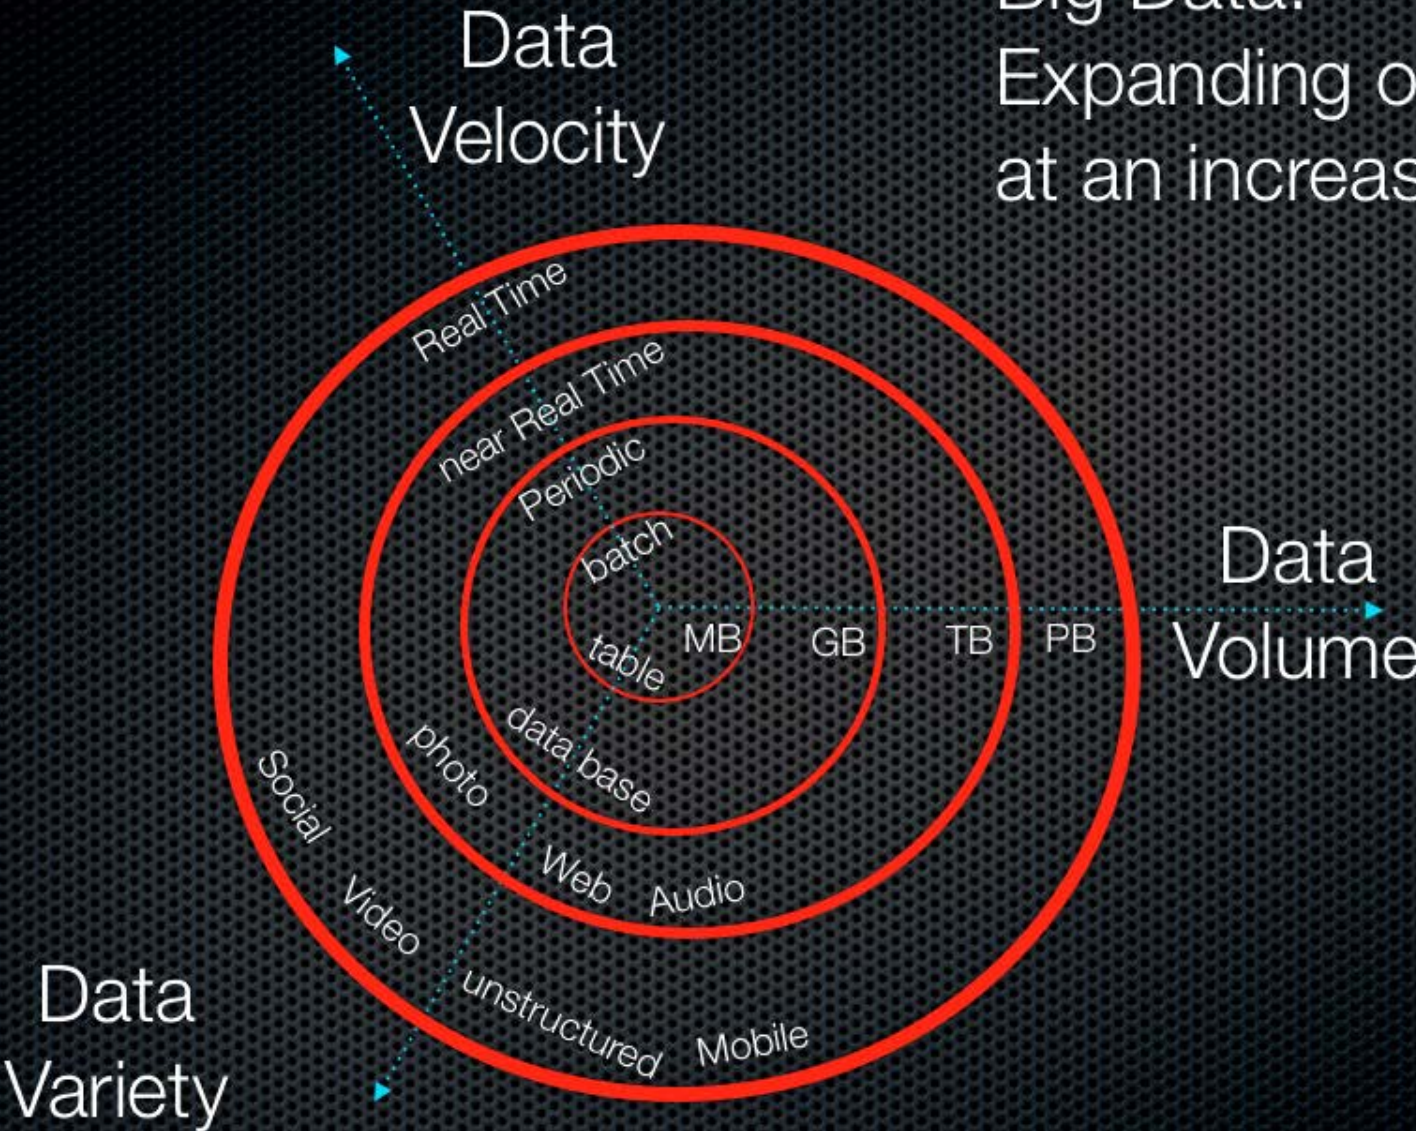

# Big Data

---

- The original V's: Volume and Velocity
- The 3 V's
  - Volume
  - Velocity
  - Variety

Big Data:  
Expanding on 3 fronts  
at an increasing rate.

# Big data in dimensions

## Volume

### Data at scale

Terabytes to petabytes of data

## Variety

### Data in many forms

Structured, unstructured, text, multimedia

## Velocity

### Data in motion

Analysis of streaming data to enable decisions within fractions of a second

## Veracity

### Data uncertainty

Managing the reliability and predictability of inherently imprecise data types

Graphic Credit: IBM

# Social Landscape Shifts

---

- Rapidly changing
- Broad to focused
- Discrete channels

# Woo Woo

# Ask the Right Questions

## Top Write-in Votes on Teen Social Survey

- **Snapchat:** 200m vs 200m for Instagram
- **Kik:** 120m users, videos, memes
- **Wanelo:** Socially curated shopping
- **WhatsApp:** 600+M mobile-first chat app
- **Vine:** “Vine is doing to YouTube what Twitter did to Blogger.”

# Other Social Channels

---

- YikYak
- Whisper
- Imgur
- Reddit
- Meerkat/Periscope
- 4Chan

# Other Social Channels

---

• **Tinder:** “They (teens) care that it made digital flirting acceptable without feeling weird.”

-Brian Wong, founder of Kiip

**Friendsy:** Tinder for college students only.

# Teen Trends

---

“The trend, particularly with the younger demographic, seems to support more **specific social networks** — statuses on Twitter (30%), photos on Instagram, pin boards on Pinterest, live stream on Pheed and short videos on Vine.”

-Perna Talreja,  
Policymic, Media and Tech, April 2013

# Teen Trends

---

“Friends and the Internet dominate teen influences and combine in social media environments. Instagram and Twitter are the two most used social media sites, implying teens are increasingly visual and sound bite communicators.”

– Fall 2014 Piper Jaffray survey of 7,200 teens

UNIVERSITY OF OREGON

# The Original Facebook?

---

- **Uversity** (previously Inigral, colleges only)
- **Path** (150 “friend” limit) [faded away in US]

UNIVERSITY OF OREGON

# CRM

---

# CRM Service

---

- Be smarter than you have been in the past
- Be more effective
- Need to appear more unified and cohesive

# CRM Action

---

- Automating actionable intelligence
- Delivering to student and the school
- Centralized comms policy: don't overwhelm

# Relevant Communications

---

- Who
- What
- When
- Where
- Hopefully you have a “Why” you are doing this.
- Opt in

# Predictive Analytics

## What Do We Want To Know

What Happened  
Reports  
Dashboards

What Is Happening  
Real-Time Analytics

What Is Likely  
Predictive Analytics

Why Did It  
Forensic Data Mining

Why Is It  
Real-Time Data Mining

What Should I Do  
Prescriptive Analytics

Graphic credit: Kent Kuo

# What Do You Want to Know?

---

- Only .5% of world's data is analyzed

# Where Do You Want to Be?

---

- Anticipating needs
- A “concierge” model

UNIVERSITY OF OREGON

# Mobile

---

UNIVERSITY OF OREGON

# Mobile

---

## Part of the Where and How

Ties into the way users want to interact, timeshift.

# Mobile Data Dev

---

"One of the most valuable lessons I've learned over my career is that if you don't log each and every click or event, you can't reinvent that information....and pull it into a big data structure."

Brian Lent, cofounder and chief technical officer of Medio. April, 2013

UNIVERSITY OF OREGON

# Mobile Usage

---

- Custom tour of class schedule
- 3D path finding
- Geo-fencing
- Location aware segmentation
- [Laundry](#)

## Burge North

UNIVERSITY OF OREGON

# You are Mobile

“[In the future], the Internet will disappear... you won’t even sense it, it will be part of your presence all the time.” –Eric Schmidt, CEO of Google

# Gameification

## Three stages

1. Informed users
2. Connected users
3. Users acting on information they receive

## Leveraging motivation beyond the fiscal:

Health tap

Klout

Fitocracy

Facebook “Likes”

Foursquare

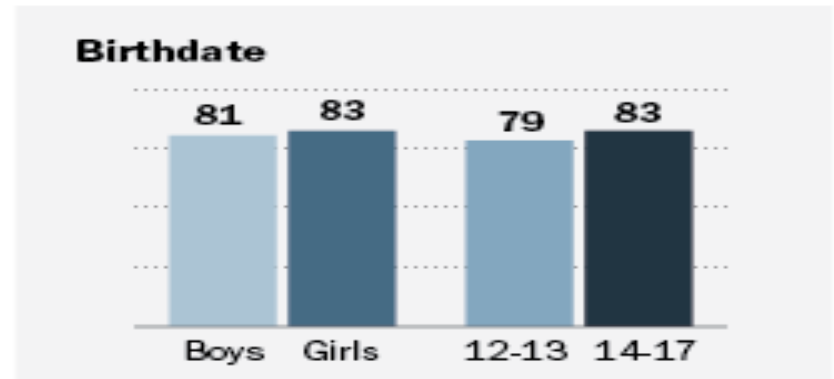

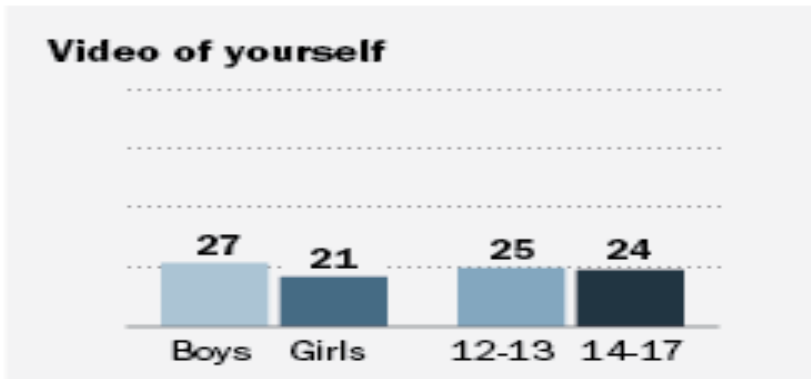

# Privacy?

## Personal Information Shared on Social Media, by Gender and Age

*Among teen social media users, percent who post the following to the profile they use most often*

### Relationship status

### City or town where you live

### School name

### Interests (movies, music, etc)

### Email address

### Cell phone number

Note: Based on teen social media or Twitter users, N=632.

# The Long Game

---

- If we are successful bringing students to us, how does that model continue through matriculation, enrollment, graduation, alumni experience to potential donors?
- How do we continue to meet heightened expectations, especially if we help create them? Avoid dissonance.

# Review

---

- Marketing and Communications
- Viral and Personalized Video's
- Big Data
- Social Media
- CRM
- Predictive Analytics
- Mobile
